CAPABILITIES & FEATURES

Core Features

Cross-Promotion Network

Join a local network of non-competing businesses. Share promotions across locations to reach new customers nearby.

We Handle the Initial Setup

Glassmenu configures your player box before it ships. Just plug it into HDMI, connect to WiFi, and you are live.

Customer WiFi Access

Our built-in private web server allows customers to access your content and menus directly on their phones via WiFi.

"Infotainment Features"

Stream your messages, live news feeds, weather. Any changes to your content are applied immediately.

Smart Features & Communication

Glassmenu isn't just for menus; it's a powerful communication tool. Keep your customers engaged and informed with built-in dynamic features. **Local weather and NWS (National Weather Service) special alerts are included.**

Local or Cloud Maintenance

Manage your signage your way. Use **Local PC maintenance** for direct updates on-site, or use our **Cloud platform** to manage screens from anywhere.

Content That Pops

Display high-definition images, videos, and dynamic menus. Schedule breakfast menus to switch to lunch automatically.

TECHNICAL SPECIFICATIONS & EXAMPLES

Requirements

Display

- Any recent HDTV or Commercial Display
- **1080p Resolution** or higher
- Standard HDMI Input

Connectivity

- **Hardwired Ethernet** (Preferred)

Beautiful, clean layouts.

What We Provide

Included Mini-PC

We provide a dedicated, small-form-factor computer. Supports up to **2 Displays** simultaneously.

Windows Interface

Glassmenu is controlled from a familiar **Windows interface**. Use a **local in-house PC** to easily manage your signage.

Plug & Play Setup

Initial media box setup is included. Just provide us with images or web content for a complete solution.

Custom Template Design

We create a custom menu template **from** your current offerings. Easily add, delete, and edit items yourself.

✨ Outsourced Management Available

Too busy to manage content yourself? **Outsourced management is available for an extra fee.** Just email us your new prices, photos, or specials, and our team handles all your updates remotely. It's the ultimate **hands-off experience** for the busy business owner.
